

ALL RIGHT SO I'M A HUMANIST BUT WHY  
JOIN THE BRITISH HUMANIST ASSOCIATION ?

- BECAUSE            No man is an island and we need to meet with others of like mind. We need to explore and develop our Humanism together.
- BECAUSE            The creative and constructive philosophy of Humanism needs to be put and restrictive and censorious views opposed.
- BECAUSE            The non-religious voice should be heard in the corridors of power. Someone has to be there to represent that voice. The Churches and anti-Humanist groups are strongly entrenched. We should not let the Humanist view go by default.
- BECAUSE            The BHA services to its members provide amongst other things literature, meetings, courses and conferences.
- BECAUSE            The BHA is a national organisation representing your viewpoint. One day you might well need its support because of discrimination. A relative might wish for a non-religious funeral. You might need help in securing a non-religious education for your child. The BHA can help in all these directions. The Humanist Counselling Service also provides skilled help.
- BECAUSE            We support local groups which provide a variety of activities from lectures and social events to action on Women's Rights, Church Schools and on items specific to their locality.
- AND                If these are your ideas about life and action only within the BHA are you likely to have so much chance to promote them.
